

Global Partnership Working Group on Knowledge-Sharing

Presentation to the Steering Committee at its
15th Meeting
21 April 2018

**Global
Partnership**
for Effective Development
Co-operation

4 Key Priorities for the GPEDC's Knowledge-Sharing Efforts

1. Strengthening the GPEDC's mutual learning loop
 2. Capitalising on available GPEDC knowledge
 3. Identifying the GPEDC's 'niche' and building mutually-beneficial partnerships with likeminded initiatives
 4. Production of demand-driven knowledge products
-

Work already undertaken

Global Mapping Exercise

- Determining of the GPEDC's knowledge-sharing niche
- Identification of potential partners / initiatives producing knowledge around development cooperation

Needs Assessment Survey

- Better understand the knowledge needs of the GPEDC's diverse membership
 - Ensure the GPEDC's knowledge-sharing mechanisms are fit-for-purpose and demand-driven
 - **250+** responses from **80+** countries representing all GPEDC constituencies
-

Work undertaken (continued)

Knowledge-Sharing Platform Terms of Reference

- Based on inputs from the Needs Assessment Survey and Global Mapping
- Consulted with the Steering Committee and Global Partnership Initiatives

Draft Partnership-Building Strategy developed (not final)

- Raise awareness of the GPEDC / KSP among initiatives working on development effectiveness
 - For incentivising diverse stakeholders to engage with the KSP and share their knowledge
-

Key highlights of the KSP

Soft launch by September 2018

Global Partnership

PHASE 1 (by 31 July)

- Dynamic and easily searchable knowledge repository
- Closed or open 'community room' feature for thematic groups or GPs
- Development of site structure, profile system, etc.

PHASE 2 (by 31 August)

- Space for Global Partnership-wide (publicly accessible) e-discussions
 - Webinar / training portal
 - Expertise centre / roster of experts
 - Information gateway of links to partner organisations' websites
 - Scale of ambition may be reduced in line with available resources
 - Need to consider human resource capacity (sustainability)
-

On this tab, Global Partnership monitoring results can be displayed by partner country or development partner. Select a type of partner, year and indicator to start exploring.
