# Implementation of the Global Partnership's Work Programme

19<sup>th</sup> Steering Committee Meeting

Implementation of the Global Partnership's Work Programme: Status Update

## Objectives

- *Provide an overview of progress so far on the proposed action areas pf the draft Work Programme.*

# Implementation of the Global Partnership's Work Programme: Status Update

Each Steering Committee meeting – from May 2020 up until the 2022 High-Level Meeting – will use this status update to discuss progress on the implementation of the 2020-22 Work Programme. The status update serves two purposes: (i) to provide progress updates of individual action areas; and (ii) to raise emerging issues, such as bottlenecks or proposed diversions from original implementation plans, including new initiatives and outputs, changes in the group of supporters or other specific proposals for information or decision by the Steering Committee. Action Area leads will be invited by the Joint Support Team to update the table ahead of each Steering Committee meeting. The Action Area Outputs from the work programme are included for ease of reference.

**Version 1 – prepared for the 19th GPEDC Steering Committee meeting on 11-12 May 2020**

|  | Issues to Discuss at the Steering Committee | Progress Updates |
|---|---|---|
| **AA 1.1 Demonstrating the impact of effectiveness** |  | The Working Group has started work on the preparatory steps for implementation. Drafts of the Action Area Prospectus, criteria for selecting Effectiveness to Impact initiatives and Tors for the research component have been prepared and discussed – and should be finalised in early May. Discussions on an outreach strategy and the identification of resources to support implementation are ongoing. |
| **AA 1.2 Support to statistical capacity and data** |  | The work has started on the scoping paper to link the effectiveness principles to the area of statistics. A global dialogue and exchange is planned on the experience of Covid 19 and the data challenge. Preparations are ongoing to input to the World Data Forum in October 2020 and a Link to the Learning and Acceleration Program in Korea. |
| **AA 2.1 Private sector partnerships** | Update of the Business Leader Caucus to a "2.0 version", possibly inviting new business leaders and networks to spearhead business engagement around the Kampala Principles | Further progress updates envisioned for the 20th Meeting of the Committee in Berne, Switzerland |
| **AA 2.2 Triangular development co-operation** | Work ongoing to further clarify complementarity between work to be carried out under the GPI and GPEDC. | |

| | | |
|---|---|---|
| **AA 2.3** South-South co-operation | | Regarding the pilot monitoring exercises, as national contexts vary widely, a set of indicators will be developed and jointly agreed with each participating country. However, it is also valuable for the exercise to have common data that can highlight potential differences between SSC providers. To this effect, commonalities in indicators across countries will be sought to help this comparison. Regarding country engagement, Mexico, Rwanda and NEPAD have recently confirmed participation in the group. A first meeting of a working group is being planned for late May. |
| **AA 2.4** Civil society partnerships | Co-Chairs are leading ad-interim.<br>Need to ensure that work stream actors complement one another in their activities.<br>No partner countries are engaged yet. | Further progress updates envisioned for the 20th Meeting of the Committee in Berne, Switzerland |
| **AA 2.5** Reinforcing foundations' engagement | AA would benefit from the participation of additional members from the Steering Committee. | |
| **AA 2.6** Development effectiveness at subnational level | Key partners are engaged to take a leadership role but resources still have to be discussed and figured out.<br>No partner countries are engaged yet. | |
| **AA 2.7** Effective multilateral support | The UNSDG is willing to assume co-lead role. Possible co-leadership from another partner pending. Discussions are ongoing with interested partners (Bangladesh, Sweden, IADB, IFAD, Dag Hammarskjold Foundation); further engagement from both development partners and partner-countries welcome.<br>Exchanges ongoing on a proposal based on group discussions held at the March virtual workshop, and subsequent inputs received from partners. | |
| **Strategic Priority 3** Leveraging monitoring for action | Need to ensure adequate resourcing for this core area of work of the Partnership<br>Co-Chairs, as lead, will be engaging those who expressed interest in SP3; aware of the importance of balanced representation across constituencies in any engagement group that is formalised.<br>Need to ensure Steering Committee plays a role to generate commitment and demand for the monitoring reform. | |
| **GPEDC Review** | Preliminary discussions on the scope of the review are proposed to take place at the SC meeting in October 2020. | |

| | AA 1.1 Demonstrating the impact of effectiveness | AA 1.3 Support to statistical capacity and data | AA 2.1 Private sector partnerships | AA 2.2 Triangular development co-operation | AA 2.3 South-South co-operation | AA 2.4 Civil society partnerships | AA 2.5 Reinforcing foundations' engagement | AA 2.6 Development effectiveness at subnational level | AA 2.7 Effective multilateral support | Priority 3 Leveraging monitoring for action |
|---|---|---|---|---|---|---|---|---|---|---|
| **OUTPUTS WITH GLOBAL REACH** | | | | | | | | | | |
| **NEW EVIDENCE AND KNOWLEDGE (Knowledge products, Policy Briefs, and Guidance Note, etc)** | Compendium of successful examples and good practices; Studies on the impact of effectiveness | Guidelines on effective support to statistical systems and capacity | Good practice examples and case studies of Kampala Principles in use Practical guidance and toolkits for practitioners on how to use the Kampala Principles | Guidance for implementing the Voluntary Guidelines Good practice Compendium (effective TrC funding mechanism and use of TrC) | Synthesis report on SSC effectiveness pilots Policy briefs on the application of effectiveness in the context of SSC | Guidance for development partners to work more effectively with civil society; Compendium of good practices Policy note with recommendations | Toolkit for effective engagement with the philanthropic in development co-operation Policy paper identifying foundations' contributions to the effectiveness agenda | Research, good practices or mapping of ongoing initiatives Policy note with recommendations | Survey of partners' expectations of an effective multilateral system [TBD] Policy briefs and case studies on effective multilateralism in different contexts | Toolkit for use of results; Evidence on results used to inform systemic reforms (at country level and by various stakeholders) New data based on testing/piloting framework and process New monitoring proposal (to also be informed from work across Action Areas) |
| **GROWING COMMUNITY AND NEW PARTNERS** | Global and local research institutions Sector ministries | Bringing together global and regional initiatives on data and statistics, as well as national statistical offices | BLC 2.0 and private sector champions | Creation of dedicated TrC webpage and survey on use of TrC | Increased engagement of southern providers | | Increased engagement of foundations through WINGS and other global networks | Collaborative network | Connecting with existing review and assessment initiatives | Increased partner country engagement across various contexts, and engagement of various partners in developing new monitoring proposal |
| **GLOBAL EVENTS AND OUTREACH STRATEGY** | Global Conference in 2022 | Side-event at World Data Forum 2020 | Multi-stakeholder consultations and engagement and through BLC 2.0 and business networks | Participation in global events (disseminate AA work) | Possible presentation of research and pilot findings on the sidelines of relevant global meetings | Global dialogue Support advocacy alongside key global meetings | Communication products Participation in Global events | Participatory discussions | Event recognizing 'champions' of effective multilateralism | Global monitoring consultations/events |

# OUTPUTS AT THE COUNTRY-LEVEL

| | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| **IN-COUNTRY DIALOGUE & CONSULTATIONS** | National workshops in the pilot countries | Dialogues on national processes related to data strategies and statistical capacity | Selected in-country and regional / international dialogue events | Coaching workshops and pilots to help build local community of practice.. | Support to in-country dialogue on results of pilot findings | Multi-stakeholder dialogues to discuss and promote an enabling environment for civil society | Country-level consultations | Participatory discussions | [TBD] | Country deep dives on use of results - Dialogues to identify and address key effectiveness bottlenecks, also informing new monitoring proposal |
| **SUPPORT TO IN-COUNTRY OPERATIONS AND IN-COUNTRY STUDIES AND RESEARCH** | Country studies on the impact of effectiveness in realising the SDGs<br><br>6 pilot initiatives in selected countries to accompany projects at the sectoral level | 3-4 country pilots to explore and test new and better ways to meet data challenges | Country level pilots to operationalize Kampala Principles | Pilots to implement the voluntary guide-lines<br><br>Coaching workshops to support the implementation of the Voluntary Guidelines | Support to southern providers in developing and testing of individual pilot frameworks to monitoring SSC effectiveness | Identify bottle necks at country level to enabling environment and agreeing on measures for resolution<br><br>Collect existing good practices | | Case studies or pilot projects | [TBD] | Country deep dives on use of results led by countries and stakeholders<br><br>Country piloting of monitoring framework /process changes |
