Guidance Note: How to Join the Global Effectiveness Community

Multi-stakeholder initiatives or networks of actors working actively in the effectiveness space can submit their interest in being part of a larger community by being featured on the Global Partnership Knowledge Platform – a community of voluntary initiatives working on cross-cutting effectiveness issues.

We request all submissions to provide the following information to the Joint Support Team (JST, info@effectivecooperation.org).

✓ Name of the initiative
✓ Involved partners
✓ Short description of the initiative, outlining concrete activities and deliverables that will contribute to the implementation of specific strategic priorities and linked to the Action Areas of the 2020-2022 work programme of the Global Partnership (max 500 words).
✓ If available, relevant website and online links on the initiative that can be promoted on the Global Partnership Knowledge Platform.
✓ Name and email address of contact person for the initiative. This name will be added to the Joint Support Team’s database and will be shared publicly for information related to the initiative.
✓ Commitment to share plans, resources, evidence and lessons through the Global Partnership Knowledge Platform, and within the Action Area groups the initiative will be contributing to.
✓ Commitment to annually report on the activities and deliverables in contribution to the 2020-2022 work programme of the Global Partnership.

The request will be reviewed by the JST against the following criteria:

- Be multi-stakeholder or a network of actors
- Be a champion on effectiveness by contributing to the implementation of specific strategic priorities and Action Areas under the 2020-2022 Global Partnership work programme

The JST will prepare a note for Global Partnership’s Co-Chairs on whether the candidate initiative meets the requirements to be part of the Global Effectiveness Community for their consideration and approval. The successful initiative will be listed on the Global Partnership website and have the possibility to create its dedicated group within the Knowledge Platform, where it can share resources and lessons from its work.

Successful initiatives will be part of the Global Partnership Work Programme Action Area working group/s for which they have indicated their interest and will be involved in Action Area/respective meetings and activities.

Their events can also be featured in the Global Partnership’s online event calendar.

In advance of Steering Committee meetings, relevant initiatives could be consulted on specific agenda items for which they can contribute with their perspective and/or evidence.

When appropriate, relevant initiatives could be invited to Global Partnership meetings, including Steering Committee meetings and workshops.

To continue being listed in the Global Effectiveness Community, existing initiatives are expected to actively engage in the Global Partnership Knowledge Platform and through the respective Action Area groups within it and report annually on the activities undertaken in contribution to the implementation of the Global Partnership work programme. In absence of the above requirements, the initiative will be removed from the dedicated space.
