

# CIVIL SOCIETY ORGANIZATIONS

Global Partnership  
for Effective Development  
Co-operation

## GLOBAL PARTNERSHIP: TRANSFORMING THE WAY WE WORK TOGETHER

With only halfway to go till we reach the 2030 deadline and with overlapping challenges and crises, we must strengthen political momentum for and champion development co-operation that is **country-owned, focused on results, inclusive, and transparent and mutually accountable** – the four principles of development effectiveness. By bringing diverse development actors together on the basis of a principle-led approach, the Global Partnership fosters **trust and policy action in countries**. It provides **new and relevant evidence** that empowers country-level actors to understand and tackle challenges towards better development co-operation.

### WHY CSOs?

Civil Society Organizations play an indispensable role in ensuring the most effective and accountable use of all development co-operation resources at global, regional, national and local level.

CSOs monitor and hold accountable policies and programs by development actors – including governments and the private sector to promote transparency and strengthen trust.

### HOW? CSOs AS EFFECTIVE DEVELOPMENT ACTORS

- **Uniquely placed** to implement impactful projects at *local and country level*.
- **Shape policies and priorities** by participating in *multi-stakeholder discussions* at all levels, advancing the rights and needs of all – including the most vulnerable.
- **Advocate** that all development programs, policies, and plans need to be *country – owned, focused on results, be inclusive, and transparent*.

## REACH OUT TO YOUR REPRESENTATIVE & BE PART OF CRITICAL DISCUSSIONS ON:

**Role of effective financial mechanisms**, in addition to Official Development Assistance, to make sure global challenges are met timely and effectively, especially when it comes to **climate mitigation, inequalities, and health systems strengthening**.

**Role of quality data and of monitoring systems** – including data availability – to assess gaps and craft policies and programs to (truly) leave no one behind.

**Role of multi-stakeholders and CSOs' participation** – despite the closing up of civic space – including through technical and financial assistance, to boost impact, results and trust.
