Global Partnership  
for Effective Development  
Co-operation

## GLOBAL PARTNERSHIP: TRANSFORMING THE WAY WE WORK TOGETHER

With only halfway to go till we reach the 2030 deadline and with overlapping challenges and crises, we must strengthen political momentum for and champion development co-operation that is **country-owned, focused on results, inclusive, and transparent and mutually accountable** – the four principles of development effectiveness. By bringing diverse development actors together on the basis of a principle-led approach, the Global Partnership fosters **trust and policy action in countries**. It provides **new and relevant evidence** that empowers country-level actors to understand and tackle challenges towards better development co-operation.

### WHY MULTILATERAL ORGANIZATIONS?

The issues we face affect everyone and require a global and coordinated response.

Strengthened co-operation requires collective action. Action agreed upon in multilateral and multi-stakeholder processes that are country-led, result-focused, inclusive and transparent can see us through this new era of challenges.

### HOW? MULTILATERAL ORGANIZATIONS AS EFFECTIVE DEVELOPMENT ACTORS

- **Conveners:** Multilateral organizations, coupled with their vast networks at all levels, are best placed to connect stakeholders and create space for policy discussions.
- **Innovators:** Multilateral organizations leverage the innovative resources needed to close the SDG financing gaps.
- **Implementers:** Multilateral institutions – working directly with governments – champion country priorities, support the development of country-owned policies and programs, and ensure that resources reach those furthest behind.

## REACH OUT TO YOUR REPRESENTATIVE & BE PART OF CRITICAL DISCUSSIONS ON:

**Facilitating new financing mechanisms, learning and dialogue** for pandemic preparedness and climate action, and for more flexible and predictable support.

**Balancing humanitarian and rapid responses with long-term solutions** addressing the root causes of the challenges facing us.

**More effective coordination between actors** to avoid duplication and fragmentation of development co-operation efforts.

**Strengthening the capacity and systems of local partners** to ensure more sustainable results.
