

Roadmap for the GPEDC Monitoring Exercise in Yemen Kicking Off in 2023

2

Data Collection October 2023 - January 2024

- **Consultations with stakeholders** from government institutions, development partners, international organisations, private sector, and civil society organisations
- **Leads: Ministry of Planning and International Cooperation (MoPIC) & Executive Bureau for the Acceleration of Aid Absorption and Support for Policy Reforms (EB)**

4

Dissemination of Results & Transition to Action March - May 2024

- **Dissemination of the Country Results** by MoPIC with the support of the EB Team in preparation to Phase 5
- The Results Brief will be **featured during Donor's portfolio review meetings, as a discussion item on reconstruction and recovery plans, and will inform SDG's related reports.**

1

Inception April- September 2023

- Scope of the monitoring assessment: **Fragility adaptation + Kampala Principles Assessment**
- Exploring **linkages and synergies** with key national processes and systems
- **Identification of focal points** and engagement in the exercise
- Virtual high-level multi-stakeholder **kick-off meeting in September 2023**

3

Data Review & Submission January - March 2024

- NC and EB will work with the JST on **reviewing the feedback on the collected data**
- Relevant stakeholders will be contacted for clarifications to ensure the accuracy of data

5

Reflection, Dialogue & Action May 2024 - ongoing until next Monitoring Round

- **High level engagement and dialogue** gathering representatives from **MoPIC, MoF, CBY, MoEE**, and other government institutions
- MoPIC will conduct **high-level multistakeholder Action Dialogues with development partners** discussing the results and reflecting on how to create **effective partnerships that support the realization of national targets**
- Yemen will participate in **peer learning and knowledge exchange opportunities to maximise action on results**
- **National action plans, strategies and M&E processes** will benefit from the reflections and multi-stakeholder dialogues.
